Error

An error occurred while processing your request

A network-related or instance-specific error occurred while establishing a connection to SQL Server. The server was not found or was not accessible. Verify that the instance name is correct and that SQL Server is configured to allow remote connections. (provider: SQL Network Interfaces, error: 26 - Error Locating Server/Instance Specified)

Jira4-EmailValidation-Passed(edge)

The screenshot shows a web browser window with the URL `https://ensekautomationcandidatetest.azurewebsites.net/Account/Register`. The page has a dark header with the ENSEK logo and navigation links for Home, About, and Contact. The main content area is titled "Register. Create a new account." and contains a registration form. The form has three input fields: "Email" with the value "Dan.Kilroycloud.com", "Password" with masked characters, and "Confirm password" with masked characters. A "Register" button is at the bottom of the form. A red error message is displayed above the form: "The Email field is not a valid e-mail address." Below the form, the text "[For Candidate Testing Purposes Only]" is visible.

Register. Create a new account.

- The Email field is not a valid e-mail address.

Jiraid 5:

The screenshot shows the same ENSEK registration page as the previous one, but with a different error message. The "Email" field now contains "Dan.kilroy@icloud.com". The "Password" field is highlighted with a blue border, and a red error message is displayed above it: "The Password must be at least 6 characters long." The "Confirm password" field is also highlighted with a blue border. The "Register" button is at the bottom of the form. The text "[For Candidate Testing Purposes Only]" is visible below the form.

Register. Create a new account.

- The Password must be at least 6 characters long.
