

Sub bugs logged.

Subbug1: Jiraid1: - Unable to register a new user in chrome.

Test results. See screenshot - jira1-register-Screenshot
error:

Error

An error occurred **while** processing your request

A network-related or instance-specific error occurred **while** e
at System.Data.SqlClient.SqlInternalConnectionTds..ctor(DbCon
Back to Homepage

Description:

When registering a new new user we get the following error attached above.

repo steps:

Navigate to

<https://ensekautomationcandidatetest.azurewebsites.net/Account/Register> in

chrome

Fill in valid credentials and register the user.

Get error page.

Subbug2: Jiraid2: - Unable to register a new user in edge.

Test results. See screenshot - jira1-register-Screenshot

error:

Error

An error occurred **while** processing your request

A network-related or instance-specific error occurred **while** e

```
at System.Data.SqlClient.SqlInternalConnectionTds..ctor(DbCon
Back to Homepage
```

Description:

When registering a new new user we get the following error attached above.

repo steps:

Navigate to

<https://ensekautomationcandidatetest.azurewebsites.net/Account/Register> in
edge

Fill in valid credentials and register the user.

Get error page.

Subbug 3: Jiraid 7: - About us pages navigates to a invalid missing 404 page.

Description:

When going to the About us page > find out more about us we get the
following page which produces a 404 to the user. <https://ensek.com/about>

repo steps:

Navigate to <https://ensekautomationcandidatetest.azurewebsites.net/>

Go to About in the nav bar > Find out more about us >

This produces a 404 error page for the user.

Screenshot attached on screenshot page - Jiraid7.

Subbug 4 : jiraid 8 - No validation on the Quantity of Units Available

Description:

We are not validating against the Quantity of units available to us. We
oversell our items and end up with minus stock.

repo steps:

Navigate to

<https://ensekautomationcandidatetest.azurewebsites.net/Energy/Buy>

For any of the values enter a number which is higher than the number of units available. This will allow you to buy and put us in a position of having less units available to us.

Screenshot attached. Jiraid8.

Subbug 5: Jiraid10: - Missing information on the Buy Energy Ui.

Description:

On the Buy Energy ui we have a offer for 30% off however we have a sticker which states 20% which is it?

Repo steps:

navigate to

<https://ensekautomationcandidatetest.azurewebsites.net/Energy/Buy>

Look at the Todays offer text stating 30% but the Red circle saying 20%.

Screenshot is on screenshots page. Jiraid10:

Subbug 6: Jirald11 - When navigating on the contact navigation bar, We are send to a error page.

Description:

When we use the navigation bar at the top of the page, if we select contact we are sent to a error page. Which is incorrect.

repo steps:

Navigate to

<https://ensekautomationcandidatetest.azurewebsites.net/Home/Contact>

See that we are met with a error page.

Subbug 7 : Jirald12: - Sell More energy is currently under maintenance.

Description:

Maybe not a issue but there is no information on the website to inform the customer.

When we navigate to the Here to sell some energy page located
<https://ensekautomationcandidatetest.azurewebsites.net/Energy/Sell>.

We are met with a maintenance page, if this is correct then we probably should inform our customers we are doing work.

Repo steps

navigate to

<https://ensekautomationcandidatetest.azurewebsites.net/Energy/Sell>
